### About Me

I am Karan Bankar, a passionate and dedicated Android Mobile Application Developer with a proven track record in creating innovative and user-friendly applications. With a strong foundation in Kotlin, Java, and Android SDK, I specialize in building seamless, high-performance apps that solve real-world problems. I constantly strive to improve my skills and stay updated with the latest technologies to deliver the best possible user experience. As a Maharashtra State Gold Medalist at IndiaSkills, I am driven by excellence and commitment to quality in all my projects

*April 2024 (15 Days)*

### Projects

#### JavaByte App :

JavaByte is an educational Android application designed to help students learn Java programming efficiently. The app provides a structured learning experience with interactive tutorials, quizzes, and resources. With features like saving important topics and downloading study materials, JavaByte ensures that users have access to everything they need to master Java, all in one place.

#### SheSafe App :

SheSafe is a women's safety Android application designed to enhance security and provide immediate assistance. The app allows users to share their live location in real-time and features an Emergency section displaying the nearest police stations and hospitals based on the user's current location. SheSafe also offers educational resources on women's constitutional rights, empowering users with crucial legal knowledge for protection and awareness.

#### Police Bharti Application :

The Police Bharti app is an educational tool designed for aspirants of Maharashtra Police recruitment exams. The app offers district-wise and subject-wise practice questions, access to previous year papers, and the ability to save important questions. With a focus on simplifying exam preparation, the app also provides users with the official syllabus and features practice tests to enhance readiness.

### Achievements

2023 - 2024 Awarded Maharashtra State Gold Medal at IndiaSkills for exceptional performance in Mobile Application Development.

May 2024

Represented Maharashtra at the IndiaSkills 2024 Nationals in Delhi & Ranked 7th in India
